

# VNS0

The Allrounder.

Both the VNS0 and the NNS0 are very robust joysticks with aluminium pressure casting consoles and metal gears. Their resistance against ozone, UV radiation, oil and maritime climate makes them especially suitable for heavy operations and in Ex-areas. They are available both as single and compound axis drives. The intelligent modular design allows customized solutions for contact elements for up to twelve units, each

of them with two switching contacts. Those may be flanged in the x-y- and z-axis as well as in series. A maximum of nine contact elements is feasible with spring return and notches. A large standard portfolio allows to choose the notches as well as the cams. They are also programmable according to client's request. Silver or gold contacts are optional. The hollow handle shaft made of a special alloy, with 8 mm diameter for
