Solid.

Both standard and custom solutions can be produced based on our modular principle. The sturdy metal cast drive block used as standard by Spohn + Burkhardt assures a long service life and high number of switching cycles. Including spring-return to center, friction brake and mechanical interlocking, the modular concept enables a wide range

of options and variations. We provides this joystick in versions either engaging in 5-0-5 step output or with spring-return. A combined version with locking contact positions and momentary contact positions is also possible. Equipped with micro-switches, double contact elements, potentiometers, or absolute encoders, it can be used for a
